Dear Sir /Ma,

#### APPLICATION FOR PARTICIPATION AT THE GIRLS WHO CODE (2) PROGRAM

I am writing in response to the 'Girls Who Code (2) program aimed at assisting girls to have the knowledge on how to code or create code so as to be great programmers which was advertised. I am an ND II student of the Abia State Polytechnic, Aba where I am studying Computer Engineering.

As a student, I have attended some trainings on coding among which is one organized by django girls, for which I emerged second best after the training. In addition, I have gained some knowledge on html, Java and C++.

I would be a great choice for this program. I am highly detail- oriented and can visualize how code will translate into the finished application. I also have the ability to effectively manage my time and prioritize.

I can be contacted on 07085007233 or 07068646872 and on email at elendugrace25@gmail.com. Thank you for your consideration.

Yours sincerely,
